

## Air Guard Unit Seeks Reservists

MSgt. George Matusic, recruiter for the 148th Communications Squadron of the California Air National Guard, has announced the unit has several openings for men without prior service who can qualify in communications and electronics.

Regular pay and rapid advancement are guaranteed for men who elect to serve in the unit, based at 2320 Parmelee Ave., Compton.

In addition to the available quotas for the men without prior service, the unit also has openings for men who have had prior service in any branch of the armed forces.

Interested men should contact MSgt. Matusic at NE 6-8636 or NE 2-3015.

## Conferences Send Parents To Schools

Torrance parents are going back to school in greater droves than ever.

According to a report made to the Board of Education by Dr. Albert N. Posner, assistant superintendent, more than 20,000 parents participated in group conferences at the city's schools this fall. Included in the group were some 4,000 parents who attended high school, "Back-to-School Nights."

In better than half the schools parents of departmentalized seventh- and eighth-graders met with all of their child's teachers. In seven schools they met with just the homeroom teacher.

This year's total of 20,534 parents represents an increase of 3,106 parents over last year, Dr. Posner stated.

## Science Labs To Expand at Marymount

Marymount College has been awarded a National Science Foundation Undergraduate Instructional Equipment grant to expand the science laboratory on the Palos Verdes Estates campus.

The funds have been provided for major equipment to be used in the chemistry, biology and physics laboratories, according to Mrs. Gertrude Eastman, head of the division of science and mathematics at the college.

Majors are presently being offered in biology and mathematics at Marymount, with minors in chemistry and physics. Plans are now being finalized to provide major study in the field of chemistry.

Seaman James I. Hansen, son of Mr. and Mrs. Glenn M. Hansen of 21112 Deelane St., recently received his Armed Forces Expeditionary Medal while serving aboard the tank landing ship USS Washoe County, operating out of Yokosuka, Japan.
